BENARD SCOTT

Academic Writer
benardscott@proton.me | California | [Portfolio Link]

PROFESSIONAL SUMMARY

Academic writer with a BSc in Information Technology and more than three years of freelance experience, working since 2023 on online writing platforms. Skilled in researching, structuring and editing academic content to a client's brief and deadline. Combines strong written communication with technical and design skills, and a background in IT support.

CORE SKILLS

- Academic writing: essays, research papers, reports, case studies and literature reviews
- Research: locating, evaluating and synthesizing credible scholarly sources
- Referencing: APA, MLA, Harvard, Chicago and other citation styles
- Editing and proofreading: grammar, structure, clarity and consistency
- Plagiarism awareness: original writing, correct attribution and paraphrasing
- Time management: meeting client deadlines across multiple concurrent orders
- Client communication: following briefs, handling revisions and giving updates
- Technology: IT troubleshooting, Microsoft Office, Google Workspace

PROFESSIONAL EXPERIENCE

Freelance Academic Writer **2023 – Present**
Online Freelance Platforms
Duties and Responsibilities

- Write original, well-researched essays, research papers, reports, case studies and literature reviews for clients across a range of subjects
- Read and interpret assignment briefs, grading rubrics and formatting requirements before starting each order
- Research, evaluate and select credible scholarly sources to support arguments and findings
- Plan and structure each paper with a clear thesis, logical flow and a strong conclusion
- Apply APA, MLA, Harvard, Chicago and other citation styles accurately, including in-text citations and reference lists
- Paraphrase and attribute sources correctly to keep every paper original and free of plagiarism
- Edit and proofread all work for grammar, clarity, consistency and formatting before delivery
- Deliver orders on or before the deadline and apply client feedback in revisions promptly
- Manage several orders at once, prioritizing by deadline and complexity
- Communicate clearly with clients, confirm requirements and keep their information confidential

IT Support Technician **2023 – 2025**
Digital Cyber Cafe
Duties and Responsibilities

- Provided front-line technical support to customers and staff on computers, software and network connections
- Diagnosed and resolved hardware, software and connectivity faults to keep workstations running
- Installed, updated and maintained operating systems, applications and antivirus software
- Assisted customers with online tasks, document typing, formatting, printing, scanning and file transfers
- Set up and monitored workstations, printers and network equipment at the start and end of each day
- Maintained a clean, organized and secure working environment for equipment and customer data
- Advised customers on safe internet use and basic computer skills

- Handled customer inquiries and payments professionally in a busy, service-focused environment
- Reported recurring faults and kept simple records of equipment issues and repairs

EDUCATION

Bachelor of Science in Information Technology **Graduated 2022**
Northwestern Polytechnic University

ADDITIONAL SKILLS

- Graphic design: Adobe Photoshop, Adobe Illustrator, Canva
- Web development: building responsive websites
